

City of Pont de L'Arche, France

Water Distribution/Supply

Utility: Mains Water Supply

Distributors: Glynwed France (national), Billmat (local)

Project: Communauté de l'Agglomération Seine Eure (CASE) - new potable network branching

Location: France, City of Pont de l'Arche (Haute Normandie)

Contractor: Sturno

Consultant: Sogeti - Bois Guillaume

Viking Johnson has supplied UltraGrip flange adapters & couplings to contractor Sturno for the development of a new potable mains water supply in the City of Pont de l'Arche, Normandie, France.

Viking Johnson supplied twenty UltraGrip flange adaptors & couplings to Sturno for the installation of a new ductile iron potable network which replaced the old cast iron system.

The flange adaptors and coupling were supplied in varying sizes from DN80 to DN200 and were chosen for their durability and design life expectancy of over 50 years. Ease of installation was also a major consideration, as it was fundamental that the whole project was completed as quickly as possible, in order to reduce the impact on the city.

In addition to the numerous benefits of the products, Viking Johnson were chosen by Sturno for their excellent delivery times and service.
