

Australia - Adelaide

Desalination Plant Transfer Pipeline

Large Diameter Flange Adaptor - DN1600

Couplings & Flange Adaptors

Dedicated

Project

The Desalination Plant will have a capacity of up to 100 gigalitres and will provide Adelaide with up to half its annual water requirement. The huge size of the plant will be powered by sustainable energy sources and will ensure that the majority of the water supply is sourced from the sea with lesser reliance placed on the River Murray basin.

Client

South Australian Water
& South Australian Government

Contractor

McConnell Dowell

Distributor

Philmac
