# Pipe Relocation Antasari Highway

UltraGrip Coupling –  
400mm (398-442) PN 10

## Project

The UltraGrip was chosen for a pipe relocation scheme on the Antasari Highway, Jakarta. The project required the jointing of two different pipe materials, PVC & HDPE and DCI & HDPE.

UltraGrip's wide OD tolerance can accommodate the option to join multiple pipe types within one fitting making the installation quick and easy to complete, this meant disruption to the network was kept to an absolute minimum.

## Client

Pam Lyonnaise Jaya (Palyja).
