

Product Certificate

This is to certify that the following product has met the requirements detailed below

AquaFast Couplings and Flange Adaptors

AquaFast couplings and flange adaptors comply with the requirements of the BS EN 12842:2012 method and are made of ductile iron (coated with Rilsan Nylon 11).

AquaFast couplings and flange adaptors are designed for use with polyethylene fittings PE100, PE80 and u-UPVC pipe in sizes 63mm to 315mm SDR 11 and SDR 17/17.6 without a support liner. The maximum operating pressure of the Aquafast couplings and flange adaptors is 16 bar.

When used on Polyethylene pipe the fittings achieve an axial end load equivalent of a Type 2 performance as defined by IGN 4-01-02:2017.
